Take-back of Euro pallets

Dear Sir or Madam,

recently, an increasing number of non-exchangeable Euro pallets have been delivered to Essen/Germany. If one of these pallets enters production, this can lead to a standstill or damage to the production plant.

From now on, only Euro pallets up to classification B will be accepted.

If non-exchangeable Euro pallets are noticed when larger quantities of pallets are delivered, acceptance of the entire delivery will be refused. The shipping department will not sort the Euro pallets. The entire delivery will be rejected.

The same applies to Euroquarz in Dorsten and Ottendorf-Okrilla/Germany.

The take-back or exchangeability of Euro pallets is subject to GPAL.

In all offers and letters there is the following note:

Euro pallets: EURO pallets in exchange on delivery. The exchangeability is determined according to the UIC guidelines (www.gpal.de). Non-exchangeable EURO pallets will not be accepted but will be invoiced. If the goods are not returned free of charge, each EURO pallet will be charged with an amount of **€ 24.50 + VAT**. Subsequent handover of EURO pallets that have not been exchanged can only take place at the **main factory in Essen/Germany**.

For information on the specification and quality classification for the take-back of Euro pallets, please see:

- Specification for Euro pallets
- Quality classification for Euro pallets

Please inform your clients and forwarding agents or warehouses.
