

GROUTING HOSE

PROPERTIES

- › Non-absorbent fabric hose for PAGEL Grout
- › Extremely elastic (approx. 14%)
- › Burst pressure (approx. 10 bar)
- › Extremely high tensile force
- › Can be installed quickly, safely and neatly
- › Removes the need for having to dismantle any formwork after grouting
- › High load-bearing capacity

FIELDS OF APPLICATION

- › Acts as a divider for areas that need to be grouted with PAGEL Grout

AREAS OF APPLICATION

- › Insert the PAGEL fabric hose into the gap underneath the equipment. Connect a pump to the end of the PAGEL fabric hose and pump PAGEL Grout into it. Once the PAGEL Grout has hardened, the individual areas can be filled with grout.
