

January 2019

Disposal of the outer packaging of PAGEL products

Under the German Packaging Ordinance, manufacturers and distributors are obliged to take back the packaging materials used.

For the completely emptied sales packages, **PAGEL SPEZIAL-BETON GmbH & Co. KG** has joined the following disposal systems.

Packaging is then emptied of all residues if it is completely used up in accordance with its intended use (PackOrd § 3(6)). They must be brush clean, spatula clean, drip and trickle free. However, residual emptying does not mean cleaning. Emptied packaging must be collected separately in accordance with the Packaging Ordinance and sent for utilization.

In order to comply with the Packaging Ordinance, **PAGEL** has concluded contracts with the following companies for disposal or take-back:

Paper bags and film at Interseroh via REPASACK
www.interseroh.de/leistungen/recycling/kraftpapiersaecke-repasack

PE/PP buckets and BigBags via
www.interseroh.de

Sheet metal containers via KBS Recycling. The KBS number is 0175.
